has the technology,
unique data sets,
insights and deep
domain expertise
that Verisk offers"*

Tim Rayner named CEO and President of Verisk Specialty Business Solutions

We are proud to announce Tim Rayner as our new CEO and President. An insurance industry veteran of more than 20 years, Rayner most recently served as Chief Experience Officer, and played an active role in the acquisition and integration of our [Whitespace](#) and [Ignite](#) businesses. Under his leadership we will continue to accelerate our innovation agenda.

Whitepaper: Reinventing Outwards Reinsurance

Managing a complex group reinsurance programme through multiple platforms is highly inefficient if not done in the right way. Thankfully, it doesn't need to be so difficult. Digitalising, standardising and automating outwards reinsurance is the way forward.

Continuing our partnership with Uptree to co-create insightful work experience

We're thrilled to continue our partnership with [Uptree](#) to connect young, diverse talent with the world of work. We hosted a 2-day event for school leavers that included a CV and interview workshop and a creative industry task in which students got to play the role of software developers.
